Ref: your email dated 26<sup>th</sup> February, 2024

Dear Sir/Madam,

We, Invitrogen BioServices India Pvt. Ltd, having its registered office at Second Floor, First Technology Place, 3EPIP, Whitefield Bengaluru, Karnataka 560066 are the Importer and Supplier of reagents/consumables under Applied Biosystems / Invitrogen / Thermo Scientific brand names, do hereby authorize M/s. Taqgene Solutions principal place of business located Shivaji Nagar, Dumardagga, Booty, Ranchi, Jharkhand-835217 to participate into tender, submit quotes, collect the orders and supply of reagents/consumables under Applied Biosystems / Invitrogen / Thermo Scientific brand.

We further authorize M/s. Taqgene Solutions, hereinafter also referred to as the Authorized Distributor, to directly accept orders for supply, make supply, invoice for such supplies made and collect the payment thereof.

The products are 100% imported in India and we are a non-local supplier.

The Authorized Distributor shall not directly or indirectly export, re-export, distribute or supply products, services, technology sold by Seller to any entity (i) in Russia, Cuba, Iran, North Korea, Sudan, or Syria, (ii) involved in improper development/use of nuclear /chemical/biological weapons (CBW)/missiles/terrorist activities (iii) prohibited by any country, from transacting in the subject product, technology or services. The Authorized Distributor is required to comply with all applicable laws and regulations including US export laws and take required licenses from regulatory bodies. Inability or delay of the Seller to supply because of failure to procure any regulatory/ export licenses, beyond reasonable control of the Seller, shall not constitute breach of Seller's obligations nor invite liability. Authorized Distributor shall be liable to (i) provide end user certificate to Seller (ii) ensure above compliances by end customer in case of resale or transfer. Authorized Distributor's noncompliance with this clause shall be a material breach of this Agreement/ transaction.

The Authorized Distributor has no right over the Intellectual Property of Invitrogen BioServices India Pvt. Ltd and the Intellectual Property Rights in the products are only given via a limited license for the purpose of fair and free use of these products for their lifetime. The Authorized Distributor shall not assign any right over the Intellectual Property belonging to Invitrogen BioServices India Pvt. Ltd to any third party.

This authorization is valid till 31<sup>st</sup> December, 2024.

Yours faithfully,  
For Invitrogen BioServices India Pvt. Ltd.,

*Deb Kumar Singh*

## Qubit™ dsDNA Quantification Assay Kits

Catalog number: Q32850

Related applications: Nucleic Acid Quantitation

Technical Support | Customer Service

Achieve accurate and precise quantification of dsDNA with Qubit dsDNA Assay Kits. These dsDNA quantification kits enable quick and selective detection of low and high abundance DNA samples, and can distinguish dsDNA from ssDNA, RNA, protein, and free nucleotides. Contaminants such as salts, solvents, or detergents are well-tolerated.

Qubit dsDNA HS and BR Assay Kits, designed for use with Qubit Fluorometers, are highly selective for double-stranded DNA (dsDNA) over single-stranded DNA (ssDNA), RNA, protein, and free nucleotides. All kits provide concentrated assay reagent, dilution buffer, and pre-diluted DNA standards. Simply dilute the reagent using the buffer provided, add your sample (any volume between 1 µL and 20 µL is acceptable), and read the concentration using a Qubit Fluorometer.

**Qubit dsDNA HS Assay Kit**

The Qubit dsDNA HS (High Sensitivity) Assay Kit, when used with the Qubit Fluorometer, provides an accurate and selective method for the quantitation of sensitive DNA samples. Depending on sample volume, the assay kit is designed to be accurate for initial DNA sample concentrations of 0.005 to 120 ng/µL, providing a detection range of 0.1–120 ng.

## Quant-iT™ dsDNA Assay Kits, high sensitivity (HS) and broad range (BR)

Catalog number: Q33120

Related applications: Nucleic Acid Quantitation

Technical Support | Customer Service

Perform dsDNA quantification easily and quickly with Quant-iT dsDNA assay kits. Both the Quant-iT High-Sensitivity dsDNA Assay Kit and the Quant-iT Broad-Range dsDNA Assay Kit provide concentrated assay reagent, dilution buffer, and pre-diluted DNA standards. These DNA assay kits are highly selective for double-stranded DNA over RNA, and, in the ranges of 0.2–100 ng DNA (for the HS dsDNA Assay Kit) and 4–1000 ng DNA (for the BR dsDNA Assay Kit), the fluorescence signal is linear.

The Quant-iT dsDNA High-Sensitivity Assay Kit and the Quant-iT dsDNA Broad-Range Assay Kit make DNA quantification easy and accurate. The kits provide concentrated assay reagent, dilution buffer, and prediluted DNA standards. Simply dilute the reagent 1:200, load 200 µL into the wells of a microplate, add 1–20 µL sample, mix, then read the fluorescence.

The assays are highly selective for double-stranded DNA over RNA, and, in the range of 0.2–100 ng for the HS assay or 4–1000 ng for the BR assay, the fluorescence signal is linear with DNA. The assays are performed at room temperature, and the signal is stable for three hours. Common contaminants such as salts, solvents, detergents, and protein are well tolerated in these assays.

For Research Use Only. Not for use in diagnostic procedures.

## Qubit™ Protein and Protein Broad Range (BR) Assay Kits

**Catalog number: A50668****Technical Support | Customer Service**

Quantify protein quickly and accurately with two unique Qubit protein quantification kits: the Qubit Protein Assay, which quantifies 12.5 µg/mL to 5 mg/mL of protein, and the Qubit Protein BR Assay Kit, which quantifies 0.1 to 20 mg/mL of protein. Both assays are compatible with many common contaminants, reducing reagents, salts, and nucleic acids. The Protein BR Assay Kit is also tolerant of detergents.

Qubit Protein Assay Kit

The Qubit Protein Assay Kit is designed specifically for use with any Qubit fluorometer. While using between 1 and 20 µL of sample, this assay can quantify samples ranging from 12.5 µg/mL to 5 mg/mL with low protein-to-protein variation.

The Qubit Protein Assay Kit is highly selective for proteins and is also highly accurate in the presence of reducing reagents, but not in the presence of large amounts of detergent. Common contaminants, such as reducing reagents (e.g., DTT, β-mercaptoethanol), salts, free nucleotides, amino acids, solvents, and DNA (but not detergents), are well tolerated in the assay. Slight protocol modifications are required for other contaminants.

The kit provides concentrated assay reagent, dilution buffer, and pre-diluted BSA

To  
The Director  
RIMS, Ranchi

Sub: Regarding our prices of Qubit range of products

Respected Sir

With due respect I have to say the discount offered for RC of Qubit consumables are best to you and we had not offered more discount to any RC in best of my knowledge.

Yours truly

With regards
