

Letter No./ Memo No. 89 (PC) Dated.. 26/10/2024

Corrigendum Notice

CORRIGENDUM/AMENDMENT in E-Tender Notice No. Rims/81(PC) dated 15.10.2024.

Technical Bid

Point 1. Due to the uploaded documents not being readable, the documents have been re-uploaded. Additionally, the documents can also be viewed in Word format on the RIMS website (<https://rimsranchi.ac.in/>) along with the e-Jharkhand portal for convenience.

Point 2. In the specifications column of Annexure 10, you can quote the pack size of your manufacturer/make, but in the financial bid BOQ of the tender, the price must be quoted according to the pack size/measurement mentioned in tender document, as per point 5 of the undertaking in Annexure 1. Orders are placed according to Tender requirement Pack Size.

Financial Bid

Sl. No	Remarks	As Per Tender Document	Amendment/ Corrigendum
1.	Item No. 75	AMH control (level 1 & level 2) compatible with fully automated biochemistry/immunoassay analyzer Bidder should have peer group data of multiple equipments. Pack Size – 5 ml	Pack Size – 1 ml
2.	Item No. 97	ANA-IFA 1. Transfected Hep2 cell with ability of picking up SSA/Ro also, with a distinguished pattern for SSA/Ro for increased sensitivity 2. The kit should be able to give the unique pattern for SSA/Ro which is missed on standard Hep2 cell. 3. The kit should have 2 positive controls and a negative control including SSA positive control. 4. The slide should have inner and outer ring areas for each well, so as to control the sample overflow not affecting the adjoining well. 5. The kit should be US FDA approved. 6. The kit should have minimum 10 well slides so that 8 samples + PC/NC can be performed together. PER TEST	Point no 1, 2 and 4 are consider as omitted. Points Added - 1. Human epithelial cell line substrate for detection of Nuclear as well as cytoplasmic anti body. 2. Kit should have positive and Negative control. 3. There should not be any cross contamination between two sample wells. 4. Slide should be breakable /cut table to perform minimum sample ex-1-2 sample Per Test
